

The food-place is a new exciting website that has customers at the heart of everything, the aim is to provide an easy to use and comprehensive service to help anyone find great restaurants in their area to fit any occasion. Anybody visiting will be able to find what they're looking for either through the specialist map or by searching by the cuisine they would like.

To help both customers and restaurant owners alike there are easily identifiable "featured restaurants" placements throughout the site, this has two great points; firstly the customers are shown the best restaurants specific to their area so that they can quickly get information on a chosen featured restaurant. These restaurants have multiple pictures of the restaurant to give the customer an idea of what to expect and also allows the restaurant to show its great decor to new customers. There is also the restaurant's menu to read online as well as contact details and any other info the restaurant wants to be shown.

The second point is that it is a perfect opportunity for restaurants to show off their business to new customers from an ideally placed position on the site, an exciting opportunity for new restaurants and established alike.
